

Product information

46 10 100

Circlip Tool

- universally usable for large circlips with diameters of 400 - 1000 mm
- reliable opening and closing of the circlips and holding by self-locking precision spindle drive
- for fitting and removing circlips
- circlips are reliably caught thanks to short, direct attachment
- replaceable tips having working ends with diameters of 6 and 9 mm, for perfect adaption to the handling bores in the circlips
- optional operation by hand, with Allen key, ratchet wrench or cordless screwdriver
- areas of application are heavy engines where very high forces and torques are transmitted with large shafts and bearings , e.g. wind turbines, tidal power stations, generator construction, hydropower stations, large machine construction (rolling mills, presses), shipbuilding, aerospace
- tool in a plastic case with foam insert
- tip material: chrome-vanadium electric steel
